

Flower Project

Materials Needed:

Various Colors of Construction Paper

Various Colors of Crepe Paper

Small White Paper Plate

Glue Stick

Scissor

Pencils

Markers or Crayons

Directions:

1. Have your child choose which colors of crepe paper they would like to use for their center of their flower. Cut pieces of crepe paper into squares and glue onto plate using a glue stick. Fill the entire plate.
2. Next use the various colors of construction paper for the flower petals. They will be cut into strips of paper and glue around the plate.
3. Use long green piece for the flower's stem. Glue it down on the back. Then take rectangular pieces of green paper and fold it in half and draw a leave on it. Cut it out and glue the leaves to the stem.
4. If your child would like to add details to the petals using markers or crayons they can.
